

sinclair is using it's license to broadcast improperly when it airs an anti-Kerry documentary as a blatantly biased political move. This is an insult to the process of a democratic election. The FCC should do it's duty and disapprove of the broadcast. If it does not act to stop this missuse of the airwaves in this missuse of the airwaves in this unjust braodcast it will be a party to the action and will be derelict in it's duty to the citizens it is pledged to protect. Thank you.
